

Volvo Construction Equipment  
Building Tomorrow

# EC200E

Volvo Crawler Excavators 19.9-24.6 t 156 hp

# Down to business

Introducing the EC200E, a 20-tonne excavator from Volvo Construction Equipment, purpose built to deliver outstanding results in medium duty applications. Working in building, utilities, road construction and more, the EC200E will be the perfect addition to your in-house operation or as part of a rental fleet.

## Optimized engine

Built on decades of experience, the Stage V certified D4 Volvo engine is perfectly optimized to get the best from your EC200E; providing the power, fuel-efficiency and reliability needed to succeed across a wide range of tasks.

## Hydraulic harmony

The hydraulics system, combined with the fully electronic control system and advanced ECO mode, has been optimized to work in harmony to match the engine power, reduce power loss and improve controllability and response time.

## Additional auxiliary hydraulic piping

The machine can be factory fitted with breaker and shear piping (X1), as well as rotator piping (X3). The state-of-the-art auxiliary lines provide the correct flow and pressure for hydraulic attachments, boosting the versatility and productivity of your machine.

## Keep track

Stay in the know with CareTrack, providing real-time telematics data on your machine, including operating hours, location and service alerts. With geo fence and time fence functionality you can specify the location and time parameters your machine can operate within and receive alerts when these pre-defined rules are broken.

# A PURPOSE BUILT 20-TONNER

In the EC200E Volvo has extended its excavator range to offer a 20-tonne machine which combines Volvo quality with exceptional value, to deliver performance and profitability in medium duty applications.

# BUILT TO LAST

When it comes to successful operations uptime is key and you can count on the EC200E to work harder, for longer. The balanced machine design features a robust boom and arm, strong undercarriage, protected components and heavy counterweight to comfortably take on tough work in tough environments.

# Keep on working

All the reliability and engineering excellence you expect from Volvo is built in to the EC200E. A durable design, long service intervals and easy routine maintenance help maximize uptime and keep your machines on site and working their best.

## Easy servicing

Complete routine servicing with speed and ease thanks to a range of features, including grouped filters accessed from the ground-level, foldable guard rails and real-time service alerts. To further improve serviceability the radiator, charged air cooler and hydraulic oil cooler are situated side-by-side on a single layer.

## Proactive machine monitoring

With CareTrack you can access a full portfolio of telematics reports, including machine health reports, helping you stay one step ahead of machine condition and performance. Working independently or with the support of your Volvo dealer, you can use telematics data to minimize the risk of unplanned downtime and ensure your machine is performing at its best.

## Work for longer

With long service intervals for oil and filter changes, the EC200E keeps working uninterrupted with fewer stops, lowering maintenance costs and minimizing disruption to your operation.

# Do more

Maximize productivity and profitability by combining the EC200E with a range of durable attachments. Increase your versatility, access more applications and perform a variety of tasks – all while experiencing faster cycle times and excellent control.

## Steelwrist® Tiltrotator

The tiltrotator can be ordered factory installed with control system and multifunctional joysticks, fully integrated into the machine and in-cab display. A range of dedicated Volvo excavator buckets are available to work in perfect combination with the tiltrotator. (Steelwrist® is a registered trademark of Steelwrist AB.)

## Ditching buckets

Volvo ditching buckets make the perfect partner for landscaping, slope shaping or ditch maintenance. Featuring 45° tilting on both sides, the tiltable ditching bucket is the ideal choice when a clean, smooth grade is required.

## Quick coupler and buckets

Volvo offer a full range of quick couplers, for quick and easy changes between attachments. Attachments such as Volvo buckets, which are the ideal tool for digging in all conditions, whether working with soft, medium or hard materials. Volvo buckets provide maximum productivity and long life and feature original Volvo wear components.

## Breaker

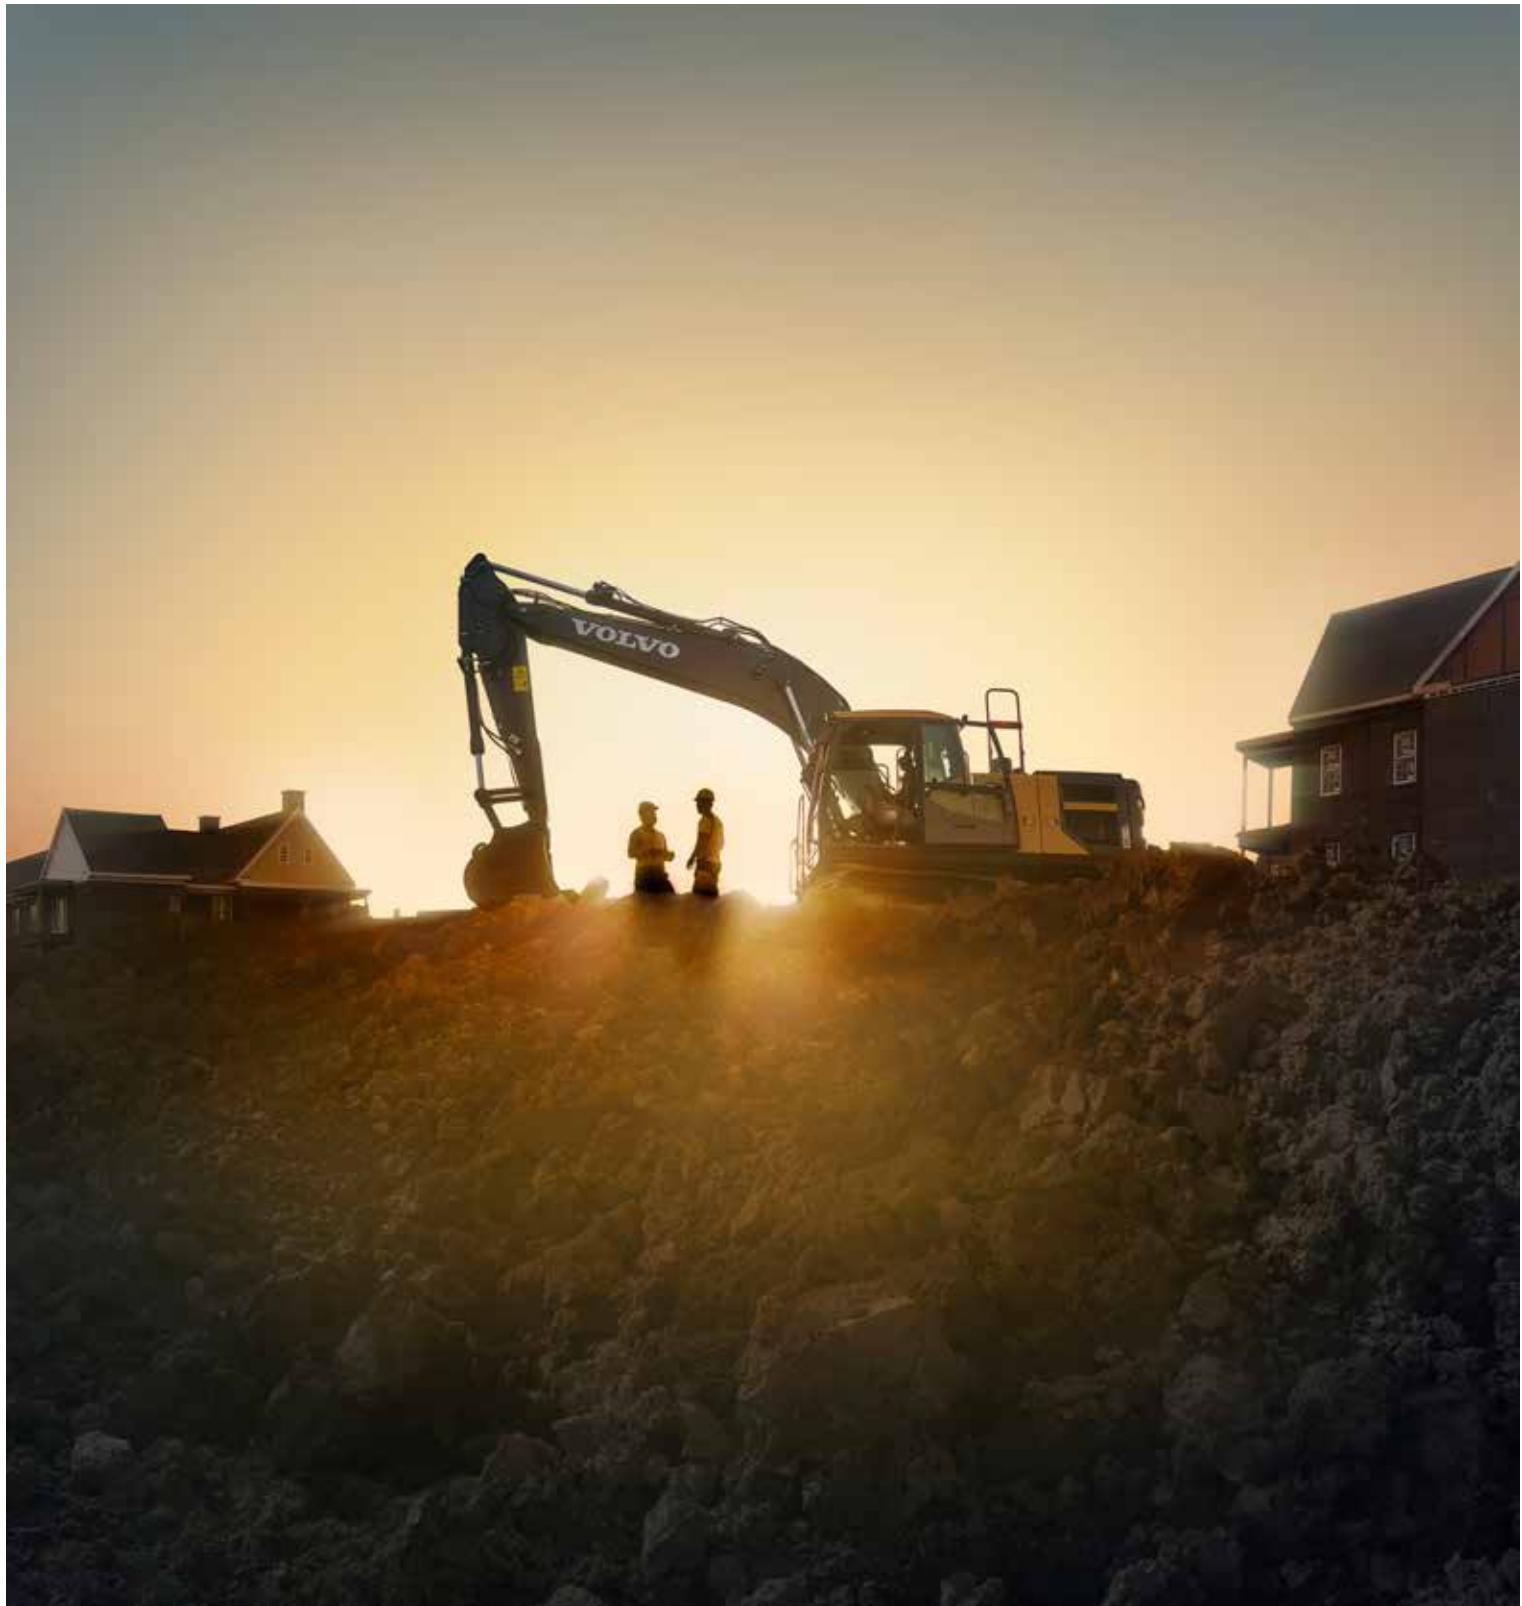

Volvo hydraulic breakers are designed to work in harmony with your Volvo excavator, delivering consistent power and performance – strike after strike. Durable by design and with a range of work tools to suit your operation, Volvo hydraulic breakers are ready to help you succeed in breaking applications.

# A TRUE ALL-ROUNDER

With one machine you can take on many tasks thanks to the outstanding versatility of the EC200E, compatible with a range of attachments and suitable for a host of applications. Mix and match between a wide variety of Volvo attachments, purpose-built to work in harmony with your Volvo machine.

# BUILDING TOMORROW

Volvo is a company working today for a better tomorrow and we do that by putting customers at the heart of our organisation. It's how we have worked for over 180 years and the EC200E continues that tradition, born out of a commitment to provide truly customer-focussed solutions.

# Simply Volvo

The EC200E features all the machine performance, operator comfort, environmental care and safety you expect from Volvo, combined with a comprehensive portfolio of services, to help you get the most from your operation.

## Impressive performance

Whether digging, lifting, swinging, grading or travelling, you can count on the EC200E for the machine performance your operation demands. With power boost, the already impressive lifting and digging forces are increased further, resulting in faster cycle times and optimum productivity.

## Safety first

Every Volvo machine is designed with safety as a priority and the EC200E features a ROPS cab, high visibility handrails, anti-slip steps and easy access to the machine via the right-hand side. Excellent all-around visibility, side view camera and optional Volvo Smart View further help to enhance the safety of operators and those working around the machine.

## The operator's choice

Widely regarded as an industry favourite, the Volvo cab is designed in consultation with operators based on their direct feedback. The outcome is a comfortable low-noise cab, easy-to-use controls and ergonomic layout, helping to keep operators comfortable and productive throughout their entire working shift.

## At your service

More than machines, Volvo offers a comprehensive portfolio of services to complement your machine's performance and boost your profitability. With a range of customer-focussed solutions, including fuel efficiency, productivity and uptime services, contact your local dealer to get started with Volvo Services.

# Purpose built performance

## OPERATOR'S CHOICE

- Comfortable low-noise cab
- Easy-to-use controls
- Ergonomic layout

## SAFETY FIRST

- ROPS cab
- High visibility hand rails
- Anti-slip steps and easy access via right-hand side

## EASY SERVICING

- Grouped filters accessed at ground level
- Foldable guard rails
- Long service intervals
- Real-time service alerts
- Single layer cooling system

## IMPRESSIVE PERFORMANCE

- Digging and lifting force
- Power boost
- Fast cycle times

## BUILT TO LAST

- Durable boom and arm
- Protected components
- Heavy counterweight
- Proactive machine monitoring

## DOWN TO BUSINESS

- Purpose built 20 tonne machine
- Optimized engine
- Hydraulic harmony
- ECO Mode
- Optional auxiliary hydraulic piping
- CareTrack machine reports and alerts

## A TRUE ALL-ROUNDER

- Matched Volvo attachments
- Quick coupler
- Breaker
- General Purpose buckets, Ditching buckets
- Tiltrotator

# Volvo EC200E in detail

## Engine

The latest generation, Volvo engine Stage V emissions compliant diesel engine fully meets the demands of the latest, emissions regulations. Featuring Volvo Advanced Combustion Technology (V-ACT), it is designed to deliver superior performance and fuel efficiency. The engine uses precise, high pressure fuel injectors, turbo charger and air-to-air intercooler, and electronic engine controls to optimize machine performance.

- Air Filter: 3-stage with precleaner
- Automatic Idling System: Reduces engine speed to idle when the levers and pedals are not activated resulting in less fuel consumption and low cab noise levels.

Engine	Volvo	D4J
Max power at	r/min	2 000
Net, ISO 9249/SAE J1349	kW	115
	hp	156
Gross, ISO 14396/SAE J1995	kW	115
	hp	156
Max torque	Nm	618
at engine speed	r/min	1 700
No. of cylinders		4
Displacement	l	4.04
Bore	mm	101
Stroke	mm	126

## Electrical system

High-capacity electrical system that is well protected. Waterproof double-lock harness plugs are used to secure corrosion-free connections. The main relays and solenoid valves are shielded to prevent damage. The master switch is standard. Contronics provides advanced monitoring of machine functions and important diagnostic information.

Voltage	V	24
Maintenance free Batteries	V	2 x 12
Battery capacity	Ah	100
Alternator	V/A	28/80
Start motor	V - kW	24-5.5

## Swing system

The swing system uses an axial piston motors, driving a planetary gearbox for maximum torque. An automatic holding brake and antirebound valve are standard.

Max. slew speed	r/min	11.5
Max. slew torque	kNm	77.1

## Travel System

Each track is powered by an automatic two-speed shift travel motor. The track brakes are multi-disc, spring-applied and hydraulic released. The travel motor, brake and planetary gears are well protected within the track frame.

Max. drawbar pull	kN	178
Max. travel speed (low)	km/h	3.4
Max. travel speed (high)	km/h	5.6
Gradeability	°	35

## Undercarriage

The undercarriage has a robust X-shaped frame. Greased and sealed track chains are standard.

Link pitch	mm	190
Shoe width, triple grouser	mm	500/600/700
Bottom rollers		2 x 8
Top rollers		2 x 2

## Hydraulic system

The new electro-hydraulic system and new MCV (main control valve) use intelligent technology to control on-demand flow for high productivity, high-digging capacity and excellent fuel consumption. The following important functions are included in the system:

- "Summation system: Combines the flow of both hydraulic pumps to ensure quick cycle times and high productivity".
- "Boom priority: Gives priority to the boom operation for faster raising when loading or performing deep excavations."
- Arm priority: Gives priority to the arm operation for faster cycle times in leveling and for increased bucket filling when digging.
- Swing priority: Gives priority to swing functions for faster simultaneous operations.
- Regeneration system: Prevents cavitation and provides flow to other movements during simultaneous operations for maximum productivity.
- Power boost: All digging and lifting forces are increased.
- Holding valves: Boom and arm holding valves prevent the digging equipment from creeping.

### Main pump : 2 x Variable displacement axial piston pumps

Maximum flow	l/min	2 x 200
--------------	-------	---------

### Pilot pump : Gear pump

Maximum flow	l/min	1 x 20
--------------	-------	--------

## Service Refill

Fuel tank	l	330
DEF/AdBlue® tank	l	27
Hydraulic system, total	l	300
Hydraulic tank	l	140
Engine oil	l	17
Engine coolant	l	14
Slew reduction unit	l	5.4
Travel reduction unit	l	2 x 2.5

## Cab

The operator's cab has easy access via a wide door opening. The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels. These along with sound absorbing lining provide low noise levels. The cab has excellent all-round visibility. The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the side door.

Integrated air-conditioning and heating system:

The pressurized and filtered cab air is supplied by an automatically controlled fan. The air is distributed throughout the cab from 14 vents. Ergonomic operator's seat: The adjustable seat and joystick console move independently to accommodate the operator. The seat has 12 different adjustments plus a seat belt for the operator's comfort and safety. Refrigerant of the type R134a is used when this machine is equipped with air conditioning. Contains fluorinated greenhouse gas R134a, Global Warming Potential 1.430 t CO2-eq.

## Sound Level

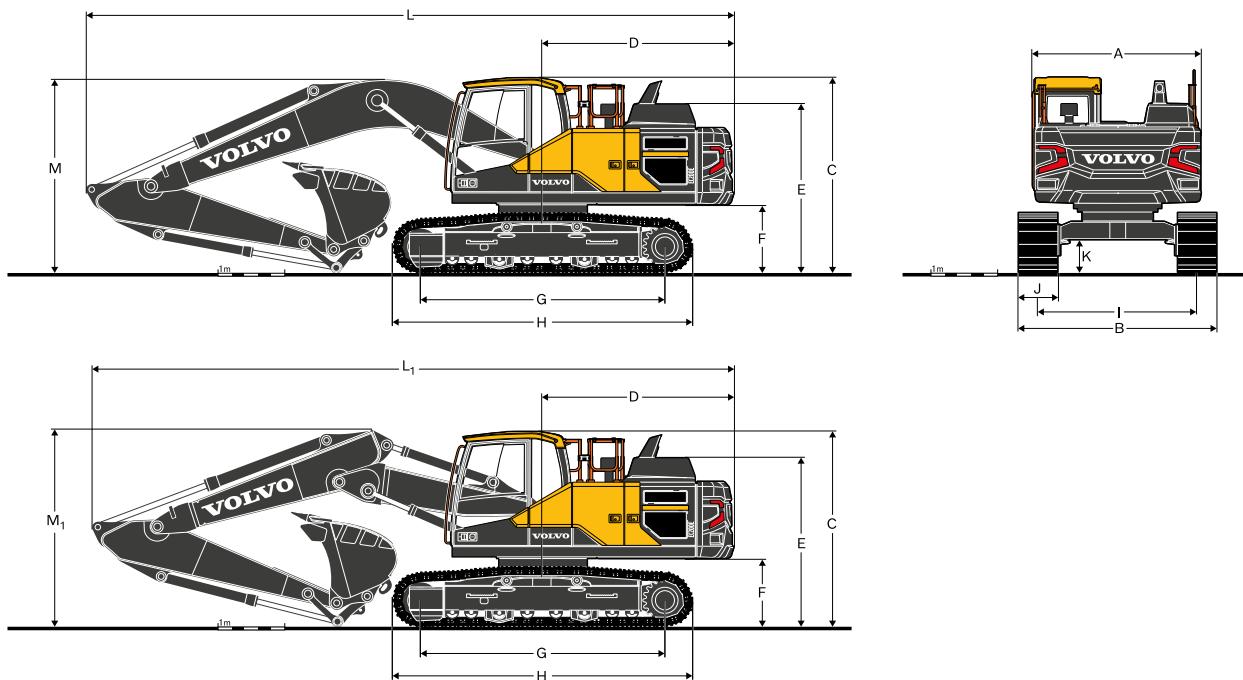

### Sound pressure level in cab according to ISO 6396

L <sub>pA</sub> (standard)	dB	69
L <sub>pA</sub> (tropical)	dB	70

External sound level according to ISO 6395, EU Noise Directive (2000/14/EC)

L <sub>WA</sub> (standard)	dB	102
L <sub>WA</sub> (tropical)	dB	103

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (\*) are limited by hydraulic capacity rather than tipping load.

# Equipment

<b>STANDARD EQUIPMENT</b>	
<b>Engine</b>	
Turbocharged, 4 stroke diesel engine with water cooling, direct injection and charged air cooler that meets Stage V requirements	
Air filter with indicator	
Air intake heater	
Standard cooling system by fan clutch (40 deg. C)	
Cyclone pre-cleaner	
Auto engine shutdown	
Fuel filter and water separator	
Fuel filler pump: 50 l/min, with automatic shut-off	
Alternator, 80 A	
Radiator mesh	
<b>Electric / Electronic control system</b>	
Contronics	
- Advanced mode control system	
- Self-diagnostic system	
GSM/GPS Caretrack and 3yr-Caretrack subscription	
Machine status indication	
Engine speed sensing power control	
Automatic idling system	
One-touch power boost	
Safety stop/start function	
Adjustable 8" LCD color monitor	
Master electrical disconnect switch	
Engine restart prevention circuit	
High-capacity halogen lights:	
- Frame-mounted 1	
- Boom-mounted 1	
Batteries, 2 x 12 V / 100 Ah	
Start motor, 24 V / 5.5 kW	
Rotating warning beacon_LED	
<b>Superstructure</b>	
Counterweight: 4 200kg	
Access way with handrail	
Tool storage area	
Punched metal anti-slip plates	
Undercovers (GP)	
<b>Undercarriage</b>	
Belly cover(GP)	
Hydraulic track adjusters	
Greased and sealed track link	
Standard track guard	
<b>STANDARD EQUIPMENT</b>	
<b>Hydraulic system</b>	
Hydraulic piping:	
- Breaker & shear, 1 pump flow	
- Slope/Rotator	
- Quick coupler	
- Oil leak (drain) line on base machine and boom	
Boom hose rupture valve with overload warning device	
Arm hose rupture valve	
Automatic sensing hydraulic system	
- Summation system	
- Boom priority	
- Arm priority	
- Swing priority	
"ECO" mode fuel saving technology	
Boom, arm and bucket regeneration valves	
Swing anti-rebound valves	
Boom and arm holding valves	
Multi-stage filtering system	
Cylinder cushioning	
Cylinder contamination seals	
Automatic two-speed travel motors	
Hydraulic oil, longlife oil 46	
<b>Cab and interior</b>	
ROPS (ISO12117-2) certified cab with fixed roof hatch	
Travel pedals and hand levers	
Seat-Fabric,Heat,Mech,2in	
Heater & air-conditioner, automatic	
Flexible antenna	
AM/FM stereo with MP3, USB and bluetooth	
Control lock out lever	
Cab, all-weather sound suppressed, includes:	
- Cup holders	
- Seat belt_Orange	
- Door locks	
- Tinted and safety glass	
- Floor mat	
- Horn	
- Sun screens, front, roof, rear	
- Large storage area	
- Pull-up type front window	
- Removable lower windshield	
- Windshield wiper with intermittent feature	
Front rain shield	
Rear view camera	
Universal key	
VSV	
<b>Track shoes</b>	
600 mm with triple grousers	
<b>Digging equipment</b>	
Boom: 5.7 m monoblock	
Arm: 2.9 m	
Linkage	
Manual centralized lubrication	
<b>Service and maintenance</b>	
Tool kit, daily maintenance	

<b>OPTIONAL EQUIPMENT</b>	
<b>Engine</b>	
Block heater: 120 V, 240 V	
Diesel coolant heater, 5 kW	
Water separator with heater	
Tropical cooling system (50 deg. C)	
<b>Electric</b>	
Extra work lights: Halogen / LED	
- Boom-mounted 1	
- Cab-mounted 3 (front 2, rear 1)	
- Counterweight-mounted 1	
Travel alarm	
Side view camera	
Anti-theft with code lock system	
<b>Superstructure</b>	
Undercovers (HD)	
Belly cover(HD)	
<b>Hydraulic system</b>	
Boom float function with HRV	
Boom float function without HRV	
Hydraulic piping:	
- Work tool management system (up to 20 programmable memories)	
- Breaker & shear, 2 pump flow	
- Pressure pre-setting	
- Grapple	
Additional return filter	
Hydraulic oil, ISO VG 32,46, 68	
Hydraulic oil, longlife oil 32,68	
Volvo hydraulic quick coupler VQC-HD, S70	

<b>OPTIONAL EQUIPMENT</b>	
<b>Cab and interior</b>	
ROPS (ISO12117-2) certified cab with open roof hatch	
Seat-Fabric,Heat,Mech	
Seat-Fabric,Heat,Air	
Seat-Fabric w/o heat,Mech	
Seat-Fabric,Heat,Air,2in	
Seat-Fabric w/o heat,Mech,2in	
Cab-mounted falling object guard (FOG)	
Cab-mounted falling object protective structure (FOPS)	
Smoker kit (ashtray and lighter)	
Anti vandal kit	
Safety net for front window	
Lower wiper with intermittent control	
Sun shield, roof hatch (steel)	
Specific key	
<b>Track shoes</b>	
500/600/700/800/900 mm with triple grousers	
600 mm with Single grousers	
700 mm with double grousers	
<b>Digging equipment</b>	
Boom: 5.57 m 2-piece boom	
Arm: 2.5 m	
Linkage with lifting eye	
<b>Service and maintenance</b>	
Tool kit, full scale	
Spare parts kit	

## SELECTION OF VOLVO OPTIONAL EQUIPMENT

### Anti-theft

### Auto engine shutdown

### Boom float (with hose rupture valve)

### Travel alarm

Not all products are available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.
